

PMS 407 Surface Ship Modernization

11 January 2017

Presented to:
Surface Navy Association

Presented by:
CAPT K. Byrne
MPM, PMS 407

Surface Ship Modernization Overview

Surface Ship Modernization Program Office (PMS 407) is responsible for:

- modernization policy,
- advanced planning and execution
- integration of new technologies
- contracting strategy and
- planning yard functions for surface ship modernization availabilities

Provides critical warfighting improvements to the Fleet and enable U.S. Navy platforms to achieve their mission relevant service life.
