N00178-04-D-4041/FC02 (FO) JXP-17-8389	EDSI Inc.	Full and Open Competition	101.00	Engineering/Technical/ Administrative/Logistics	Fallbrook, CA and Hawthorne, NV	FY16	2nd Qtr	Expeditionary	Engineering, technical and programmatic support services in the following areas: test and evaluation; scientific/engineering analysis and studies; technical data support; field engineering; programmatic support services, and data management support. These services are in support of conventional munitions; weapon systems; combat, amphibious, and tactical vehicles; Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) systems; sensor systems; communication systems; electro-optics; and other science and technology (S&T) systems. In support of Joint Special Operations Response Department, Expeditionary Systems Evaluation Division.
N00178-04-D-4078/FC03	McKean	Full and Open Competition	14.90	Administrative / Technical	Crane, IN	FY16	3rd Qtr	Corporate Operations	Non-personal engineering and technical services for NSWC Crane. Program management, data analysis, human resources, corporate communications, patent office coordination, strategic business planning, operations, metrics and program management support services, coordinate and maintain program documentation and databases, assist with defining and implementing strategic planning efforts, recommending business and market strategies, interface with customers, design technology roadmaps and facilitate the science and technology program.
N00178-04-D-4018-FC01 (FO) JXN-16-8263	BAE	Full and Open Competition	63.00	Technical	Crane, IN	FY16	3rd Qtr	Expeditionary	Work efforts and training and training presentation products in support of the Joint Forces Training & Support Branch. Level of effort tasking will provide technical support for the training of U.S. Special Operating Forces (SOF).
N00178-04-D-4119/FC45 GXP-17-8346	SAIC	Full and Open Competition	120.00	Engineering /Technical/ Administrative/Logistics	Crane, IN	FY16	3rd Qtr	Global	Engineering, technical, logistics, configuration management, data management, and program management support services for the Platform and Launch Systems Division's (GXP) Launch Systems Production Engineering Branch (GXPL), the Platform Engineering Branch (GXPM), and the Launch Systems Design Branch (GXPR). Support services include research and development; system/software/safety engineering, analysis, design, and test and evaluation; support prototyping, preproduction and fabrication; reliability and maintainability; logistics and configuration management; quality assurance; in-service engineering and field service; material handling, and inventory management support services.
N00178-04-D-4042/FC23	URS	Full and Open Competition	16.00	Technical / Engineering / Data Management	Crane, IN	FY16	3rd Qtr	Spectrum	Engineering, Technical and Programmatic support for Maritime Surface, Subsurface domains. Development and upgrade of fielded systems including all electronic detection and guidance devices.
N00178-06-D-4684/FC01	Applied Tech Systems	Full and Open Competition	4.00	Technical / Engineering	Crane, IN	FY16	3rd Qtr	Spectrum	Common Digital Sensor Architecture core system support including system program goals, cost and schedule reorting requirements, documentaion, logistics, engineering and test requirements.
