#	COMM	ITEM	PARA or PAGE	ACTIVITY	ORIGINATOR	AS PER ORIGINATOR				BRIEF OF PROPOSAL	ACTION TAKEN				
						ADM	TECH	COST UP or DOWN	SKED		APP	MOD	DIS	OTH	
001	G	009-01	3.2.2	BAE SD	Shuler	X				Change the requirement for reports that could result in a change in work to be accomplished during CMAVs, WOOS and Emergent Avails from 20% to 40%.	40% leaves insufficient time for Supervisor evaluation and direction. Delays during short avails can be individually addressed by CFR.			XXX	
002	G	009-01	3.2.5	MARMC	Truax	X		No	No	NMD does not support signature and title of ktr without scanning/attaching a document. Add an exception if the information within NMD is correctly filled out.	New 3.2.5.5: Reports written or submitted in NMD satisfy the requirements of 3.2.5.4.		XXX		
003	Admin	009-01	3.2.6.1	MARMC	Wise/Garner	X		No	No	Acronyms for NMD and CRF need spelled out.	There is no reason to put acronym "CFR" since it is not used again in NSI. Change verbiage in parenthesis to: (e.g., Condition Found Reports)		XXX		
004	G	009-01	3.2.9	MARMC	Ballance	X		No	No	NSI does not address ktr requirements when SUPERVISOR determines a report is required and not invoked in the Work Package. Add "Submit additional info/reports when requested by SUPERVISOR, within 4 days.	Not sufficiently defined to bid under FFP. Would allow any supervisor rep latitude to "demand" report from KTR. 4E dictates when to require a report.			XXX	
005	G	009-01	3.9.2	MARMC	Smith	X		No	No	Add non-conformance policy for deviations specified technical requirements.	Addressed via change proposal G-006.		XXX		
006	G	009-01	3.9.3	HRMC	Jeter		X	No	No	Clarify requirements for deviations that require a DFS.	Add new paragraph 3.9.4 to address.		XXX		
007	G	009-01	3.15	NWRMC	Eldridge	X		No	No	Require that corrections to OQE be made by or concurred by the originator/signer.	3.15 has broad application beyond OQE. KTRs QMS addresses document control, inclusive of corrections.			XXX	
008	G	009-01	3.19	CNRMC	Boslego		X	No	No	Add the requirement of GSO to the NSI.	Recommendation not 4E compliant. Applicable/appropriate GSO requirements are incorporated in individual NSI or WI.			XXX

						ADM	TECH	COST UP or DOWN	SKED			APP	MOD	DIS
009	MQ	009-04	3.1.7	Stand Cal	Fontaine	X		Down	No	Clarify Calibration labs accreditation requirements.		XXX		
010	MQ	009-04	3.1.7	MARMC	Phillips		X	Up	No	Clarify calibration interval requirements assigned to M&TE used by MSR/ABR contractors.	3.1.7.1 to read: Calibration intervals assigned to Measuring and test Equipment used by the contractor for acceptance testing shall meet those recommended in 2.7 unless alternate calibration intervals are established in accordance with 2.3.		XXX	
011	MQ	009-04	3.2	BAE SD	Young	X		No	No	Change PCP submission requirements for CMAVs, WOOs, and CASREPs.	Add to the end of paragraph 3.2: start of required process for CNO availabilities, or as otherwise approved by Supervisor.		XXX	
012	MQ	009-04	3.5	SERMC	Vopper	X		No	No	Clarify CAR follow up response times.	Add sentence to the end of paragraph 3.5: All follow up responses shall be as specified by the Supervisor.		XXX	
013	MQ	009-04	3.7.2	HRMC	Jeter		X	No	No	Add requirement for ktr to develop TIP in NMD.	NMD not ready to go live. Working on some improvements.			XXX
014	MQ	009-04	3.10, 3.10.3, 3.11.6.1	MARMC	Wise		X	No	No	Delete (Q) checkpoints since they were only used for documents such as EPCPs.	Some RMCs are still using Q points, 009-09 is currently under revision.			XXX
015	MQ	009-04	3.11.2.4	SSBASD	Bowen	X		Down	Yes	Clarify requirements for rescheduling/canceling call-outs outside of normal working hours.	Adequate requirements are already in place.			XXX
016	MQ	009-04	3.11.3.1	MARMC	Peck		X	No	No	Delete EPCP requirements and replace with PCP.	EPCP's were already deleted in FY16 NSI. Specific comments for PCPs should be provided to CNRMC for possible incorporation to INST 4700.5B.			XXX
017	MQ	009-04	3.16.2.1	NWRMC	Brorson		X	Up	No	Clarify use of Attachment "A" for Naval Shipyard managed contract work.		XXX		
018	Admin	009-04	3.16.2.1	CNRMC	Greider	X		No	No	Change MIS to MRL.	Removing the phrase "the Master Integraed Schedule (MIS) and" from 3.16.2.1.		XXX	
019	MQ	009-04	3.16	PSNS&IMF	Archut	X		Up	No	Clarify requirements for ktr for certify to the SUPERVISOR that work is completed technically correct with all required OQE.	Addressed via MQ-017.			XXX
020	HP	009-06	3.3, Notes	NWRMC	Johnson		X	Up	No	Modify inspection point to (V) or (V)(G). (V)(G) to be accomplished when the contamination producing operation is abrasive blasting.	No Government inspection necessary, the KTR Visual inspection is adequate.			XXX

						ADM	TECH	COST UP or DOWN	SKED			APP	MOD	DIS
021	HP	009-06	3.6	MARMC	Arnold		X	Down	No	Addition of acceptance criteria for inspection point.		XXX		
022	ES	009-07	3.3.1, 3.3.8, 3.7.11	NAVSEA04	Burt		X	No	No	Addition of requirements to require comms between fire watches when multiple fire watches are required. Addition of requirements to require depressurization and protection of lines/piping containing flammable or combustible fluids during hot work operations.	Add the following after ship's Quarterdeck: A means of communicating between fire watches, and between those fire watches and their corresponding hot workers shall be provided. Did not adopt new 3.3.8, already adequately addressed. Did not adopt new 3.7.11, actual evacuating system lines could make it worse as vapors would remain and are more flammable.		XXX	
023	ES	009-07	3.7.5.1	Valkyrie	Foy		X	No	No	Clarify requirements for type of portable fire extinguisher.		XXX		
024	ES	009-07	3.7.8	SERMC	Moore	X		No	No	Add previously deleted requirement for fire retardant ventilation.		XXX		
025	ES	009-07	3.10, 3.10.1	BAE SD	Wesley	X		Up	No	Clarify requirements for conducting housekeeping and fire prevention walkthroughs during CMAVs, WOOs, etc.	Change will reflect updated input provided by the originator.		XXX	
026	ES	009-07	3.11.3.1	SERMC	Moore	X		No	No	Clarify requirements for ktr to roll back temp services.	Disapproved, delays and disruptions to work would be too costly.			XXX
027	ES	009-07	3.16	NWRMC	Trull		X	Up	No	Clarify Diesel Generator requirements.	This requirement is designed to provide backup power for firefighting, not for all ships power. Generator requirement in 009-69 is for use during heavy weather situations.			XXX
028	ES	009-07	Not Given	FDRMC	Musgrove		X	Up	No	Clarify requirements for removing joiner doors and installing fire retardant curtains.	009-06 3.2 already states to prevent contamination and damage of the ship's equipment, components, and space during contamination-producing operations. Putting this item in 009-07 would require KTR to remove all joiner doors in all types and lengths of avails.			XXX
029	Admin	009-08	Attach "A"	CNRMC	Sawyer	X		No	No	Remove ships from Attachment "A" that are no longer on Naval Vessel Register.		XXX

042	Admin	009-19	4.3	PSNS&IMF	Mohl			No	No	Update ICAPS website URL.	New website (https://nedcchrqw.dc3n.navy.mil) provided by the ICAPS functional Manager is not accessible. Action Item: Verify correct website. Action Item completed, verified correct website.	XXX			
043	G	009-21	3.1.2	PSNS&IMF	Mohl	X		No	No	Add requirement to submit data required by Attachment "A" via a CFR in NMD.	Redirected change to 009-01 (vice 009-21): Submit documents (including procedures, required reports, plans, forms) requiring supervisor review, approval, acceptance or direction via an NMD conditions found report unless otherwise directed by the supervisor.		XXX		
044	G	009-21	3.2, 3.3, 4.1	ILS	Hamrick	X				Update to submit TDS to both the SUPERVISOR and 3MC.	This change would contract deliverable directly to the ship and seeks to address a local data submission problem.			XXX	
045	EE	009-22	3.1.3	AMSEC	Yankovich		X	Up		Correct the test equipment for minimum reading requirements for coaxial cables.	Industry representatives state test equipment is readily available and at a price range of a standard megger.			XXX	
046	EE	009-22	3.3	BAE SD	Spieldenner	X		No		Clarify report submission requirements.	NSI 009-73 will be revised at a later date to require the report. Action Item: Move reporting requirements from 009-22 to 009-73. Once revised, 009-22 will accomplish the test, 009-73 will dictate when a 009-22 is to be accomplished and when a report is required.			XXX	
047	PB	009-23	3.2.1	HRMC	Jeter		X	No	No	Clarify process for tracking all interferences.	Adopted with additional verbiage that provides examples of item description.		XXX		
048	PB	009-23	3.6.3.1	HRMC	Jeter		X	No	No	Clarify process for tracking all interferences.	3 of 4 submissions adopted with additional verbiage that provides examples of item description. 3.6.3.4 not adopted due to it would be a redundant requirement.		XXX
