

NAVAL SEA SYSTEMS COMMAND WARFARE CENTERS

2016 Economic Impact

The NAVSEA Warfare Centers (WCs), which includes Naval Surface Warfare Center (NSWC) and Naval Undersea Warfare Center (NUWC), represent approximately 30 percent of the Navy’s engineering and scientific expertise. The NAVSEA WCs employ nearly 24,000 scientists, engineers and support personnel within 10 Divisions located across the United States.

The primary role of the NAVSEA WCs is to help make Naval programs successful by providing unbiased technical advice and solutions to our partners, namely the NAVSEA Program Executive Offices (PEOs), the fleet, the Marine Corps, the Office of Naval Research (ONR), the Department of Defense (DoD) and the Defense Advanced Research Projects Agency (DARPA). Our scientists, engineers and technicians provide technical advice and solutions across the entire “full spectrum” lifecycle of platforms and systems – from “cradle to grave.”
