# PANAMA CITY DIVISION

## NAVAL SEA SYSTEMS COMMAND WARFARE CENTERS

Located on over 650 acres along St. Andrew Bay in Panama City, Florida, Naval Surface Warfare Center (NSWC) Panama City Division is the Navy's premier organization responsible for research, development, test and evaluation (RDT&E) of systems applicable to littoral warfare and coastal operations. The Division specifically focuses on RDT&E in the areas of mine warfare, expeditionary maneuver warfare, special operations, diving and life support, and other missions that take place in the coastal region. By virtue of its geographical location, coupled with its recognized mission areas and technical expertise, the Division is a principal player in Joint expeditionary and coastal operations in the littoral environment.

### ***Mission***

Conduct research, development, test and evaluation and in-service support of mine warfare systems, mines, naval special warfare systems, diving and life support systems, amphibious/expeditionary maneuver warfare systems and other missions that occur primarily in coastal (littoral) regions. Execute other responsibilities as assigned by Commander, Naval Surface Warfare Center.

### ***Vision***

The premier Naval Systems Laboratory in the Department of Defense, delivering superior technology and joint warfighter capability in littoral warfare that assures SeaPower 21 Naval supremacy, today and tomorrow!

### ***Capabilities***

- RDT&E for Navy, Joint, and other agency diving and life-support systems
- RDT&E and systems engineering of mine warfare/mine countermeasure systems, amphibious warfare systems, and Naval special warfare systems
