

Major Ship Alteration Engineering and Technical Support Services Industry Day Event Information  
Naval Undersea Warfare Center, Division Newport  
Code 45, USW Platforms & Payload Integration Department  
07 September 2023

**Questions & Answers**

**Q1-** Do all of the key personnel listed need to have TS- SCI clearances?

**A1-** Not all key personnel are required to have TS-SCI. The cyber security key member does require it. Additional non key member involved in the installation of some of the systems will require TS-SCI.

**Q2-** Is a TS/SCI facility clearance truly a requirement? To have an active TS-SCI requires a contract with this clearance already, which can take years to get. Will the government sponsor the companies to get it if awarded the contract? Does the company require a SKIF?

**A2-** Yes, a TS/SCI facility clearance is required. A separate TS/SCI facility on the contractor site or run by the contractor is not required. NUWC will provide the facility for this work.

**Q3-** What percentage of the work for this contract will be SOC/DSS SUBSAFE?

**A3-** 0% on this contract.
