QUALIFIED PRODUCTS LIST

OF

FSC 3439

PRODUCTS QUALIFIED UNDER FEDERAL SPECIFICATION

QQ-E-430

ELECTRODES, WELDING, COVERED; MILD STEEL

This list has been prepared for use by or for the Government in the procurement of products covered by the subject specification. All products listed herein have been qualified under the requirements for the product as specified in the latest effective issue of the applicable specification. Revision or amendment of this list will be issued as necessary. The listing of a product does not release the manufacturer from compliance with the specification requirements.

THE ACTIVITY RESPONSIBLE FOR THIS QUALIFIED PRODUCTS LIST IS THE NAVAL SHIP ENGINEERING CENTER.

<p>NOTE: Sizes of brands of type MIL-6020, Class 2 electrodes marking with an asterisk (*) have also been found acceptable to use with the "high-speed, straight-progression fillet-welding" technique in the horizontal fillet or flat fillet-welding positions with direct current straight polarity on medium steels. Note that in design or practice no reduction in gage size fillets from that called for in the applicable portions of the general specifications, Appendix 3, is permissible when using this technique.</p>
