

Public-Private Partnership Opportunities

NAVSEA

WARFARE CENTERS

Indian Head EOD Technology Division

CITE Overview

- Naval Surface Warfare Center Indian Head EOD Technology Division (NSWC IHEODTD) received designation as a Center for Industrial and Technical Excellence (CITE) on May 1, 2014, for depot maintenance and military arsenal activities.
- This designation provides the legal authority for NSWC IHEODTD to enter into Public-Private Partnership (P3) Agreements for the development, manufacture, test, maintenance, and storage of energetic materials, and ordnance systems.
- NSWC IHEODTD is actively engaging with private industry to establish P3 relationships for the long-term utilization of excess energetics and ordnance systems capabilities.

Opportunities for Private Industry

- Access and use of unique facilities with established manufacturing processes and technical expertise.
- P3s provide opportunities to leverage expertise, capabilities, and investments from public and private sources.
- Long term commitment of partnership activities.
