"Powering Today's Fleet, Innovating Tomorrow's"

NSWCPD offers a variety of opportunities to talk to students about careers and career paths to inspire, educate, and motivate them to pursue careers related to Science, Technology, Engineering, & Mathematics (STEM). These opportunities include presentations, informal discussions, career panels, and more!

Career Day Programs

Summer Camps (June-Aug.):

NSWCPD participates in a variety of STEM summer camps at partner institutions and invites students for career discussions and tours.

Take Our Daughters & Sons to Work Day (4th Thurs. in April): NSWCPD invites employees' children a glimpse into life in the workplace.

National Engineer's Week STEM Celebration (Feb.):

NSWCPD invites students to participate in a celebration of National Engineer's Week at NSWCPD.

Career Days & Speaking Engagements (Sept.-May):

NSWCPD sends workforce members to schools for speaking engagements and STEM demonstrations for in-school Career Days and more.

NSWCPD also provides resources for hands-on demonstrations and project based learning related to a student's career field and NSWCPD's mission. These opportunities are available in school, after school, and in the workplace. This often includes a special emphasis on groups historically underrepresented in STEM fields.
