

NREIP NAVAL RESEARCH ENTERPRISE INTERNSHIP PROGRAM

The Naval Research Enterprise Internship Program (NREIP) provides college undergraduate and graduate students a paid opportunity to participate in real research at a Navy laboratory during their summer break. NavalSTEMInterns.us

SEAP SCIENCE & ENGINEERING APPRENTICESHIP PROGRAM

The Science and Engineering Apprenticeship Program (SEAP) is open to high school students and offers a similar opportunity to work alongside Naval scientists and engineers at a lab during the summer. NavalSTEMInterns.us

NAVAL HORIZONS

Naval Horizons is an online educational experience for both high school and college students in which they are introduced to Naval STEM challenges through a video series and participate in an essay contest judged by mentor scientists and engineers. NavalHorizons.us

Are you a student or know one who is interested in a career in a STEM field?

The Office of Naval Research (ONR) offers hands-on experience with Naval research. Embark on a career in STEM!
