

# Student Employment Program (SEP)

CO-OP &  
SUMMER HIRES

## what is it?

The Student Employment Program (SEP) was established to provide students with the opportunity to gain practical job skills while working with or under the guidance of experienced personnel. SEP provides internships for undergraduate and graduate degree-seeking students enrolled in STEM (scientific, technology, engineering, or mathematics) and non-STEM majors.

### highlights

- Applications accepted year-round
- 6-8 month co-op rotations
- Summer hire opportunities
- STEM & non-STEM majors accepted
- Paid internship experience

### benefits

- Participants may be eligible for federal benefits (ex. Annual and Sick Leave, 401k, Life and Health insurance)
- Co-op participants who successfully complete the program may be eligible for conversion to a permanent position

### requirements

- Provide proof of U.S. citizenship
- Obtain and maintain a security clearance
- Be at least 18 years old
- Enrolled/accepted for enrollment and in good academic standing in a degree-seeking program
- Enrolled in classes at least half time as defined by academic institution you are attending
- Academic institution must have an established co-op program
- Minimum 2.5+ cumulative GPA
- Engineering majors must be enrolled in ABET accredited program
