

ANTX

A collaborative event where technologists (industry, academia, and Naval R&D Establishment), stakeholders, and warfighters exercise innovations and prototypes at the R&D level before integrating at the operational level.

Over 30 active demonstrations exercising more than 60 unmanned systems, addressing the theme 'Battlespace Preparation in a Contested Environment'

- Mine Warfare (MIW), Intelligence, Surveillance and Reconnaissance (ISR), and payload delivery
- Processes that fuse collected data
- Live demonstrations of Tactics, Techniques and Procedures (TTPs)

ANTX
ADVANCED NAVAL TECHNOLOGY EXERCISE

2017

ANTX 2017 Battlespace Preparation in a Contested Environment (BPCE)

In-water exercises occur at NUWC Newport, RI and NSWC Panama City, FL, with SUBDEVRON5 participation at both sites and virtually from Keyport, WA

August 15-16, 2017
