HEPCO, Inc.

Mission Statement: To provide our private and public sector clients with highly qualified personnel across a spectrum of disciplines to include Engineering, Aerospace & Defense, Telecom, Transportation, and IT. We do this in a timely, cost effective and professional manner at all times, while maintaining the highest levels of integrity with both our clients and employees.

Core Capabilities: Engineering Staffing – Entry Level to Division Manager
Placing Contractors, Permanent Employees and Temp-to-Perm staff
Payrolling of Client Retired Personnel as Needed
Placing Recently Graduated Engineers so the Client can Try Before it Buys.

HEPCO, Inc.

Recent Successes: On the Defense side of our business, the vast majority of our contract employees (about 130 engineers) are working on projects requiring clearances, and HEPCO does not have a need to know how these contracts are doing from a success point of view.

Our largest non-defense client is New York City Transit, where we have over 60 engineers working and are the largest provider of contract engineers to NYCT then the next four staffing vendors combined.

Growth Strategy: HEPCO's work with major DOD vendors has involved our contractors working on Army, Air Force and Marine contracts mainly. Our Navy work has been mostly on sonars and torpedoes. We want to grow our Navy contract work.

HEPCO, Inc.

Key Customers:

BAE Systems

Cobham Defense

Lockheed Martin

New York City Transit – MTA

Northrop Grumman

Major Contract Vehicles:

HEPCO is not in the Federal or State Contracting business, and never has been. Rather, we are in the business of augmenting our clients' staffing needs on both existing and new Federal and State contract awards they have won or are winning. Our primary focus has been on the Defense Sector dating back to when aerospace engineer Herbert E Pietzer founded the company in 1973.

HEPCO, Inc.

Past Performance – Major Clients:

Multiple Contracts since 2001; Defense; BAE Systems; \$100 million +

Multiple Contracts since 2001; Engineering; NYC Transit; \$80 million +

Multiple Contracts since 1975; Defense; Northrop Grumman; \$70 million +

Multiple Contracts since 1998; Engineering; Verizon; \$55 million +

What differentiates HEPCO as a Staffing Company from our Competitors?

- 1.) We have been in business for 44 years serving 100's of clients.
- 2.) We provide our clients with exceptional service on a consistent basis.
- 3.) Our contract employees continually provide us with new client leads because we treat them like respected family members.
- 4.) We are a Service Disabled Veteran Owned Small Business.

- **Conversion to a 100% ESOP Owned Small Business**

Growth Strategy

- **To showcase MAI's capabilities to a broad range of potential customers and teaming partners**
- **To foster utilization of internally developed proprietary skills and technology to enhance mission capabilities**

MARINE ACOUSTICS, INC.

Marine Acoustics, Inc.

Key Customers

- Office of Naval Research Code 32
- Johns Hopkins University Applied Physics Laboratory (servicing N2/N6F21 PMS 485, PMS 420, PEO IWS5A)
- HDR Environmental, Operations & Construction, Inc. (servicing NAVFAC LANT, CUS, BOEM/BSEE)
- MIKEL, Inc. (servicing NUWC DIVNPT)

Major Contracts/Contract Vehicles

- ONR LWAD/LASW Test Planning Support
- ONR Code 32 Programmatic Support
- SURTASS LFA EIS/Environmental Compliance
- Oil & Gas Exploration Expert Working Groups
- LCS/ACB/APB/ARCI Development/Test Planning Support

Marine Acoustics, Inc.

Past Performance

Contract Name; Contract Type; Customer; Total Value

- **LWAD/LASW Support; CPFF, ONR; \$5M**
- **Code 32 Programmatic Support; CPFF, ONR; \$5M**
- **SURTASS LFA EIS/EC; CPFF/FFP; N2/N6F21/CUS/NAVFAC; \$3M**
- **ARCI/APB Development/Test Support; CPFF, NUWCDIVNPT (via MIKEL Subcontract); \$3M**
- **Multi-Ship Sonar Bistatic Automatic Active Localization Phase II SBIR; CPFF; PEO IWS5A; \$1.5M**

Why Marine Acoustics?

MAI prides itself on technical ability; highly specialized knowledge; responsiveness; a focus on internal R&D; and the continued development of a cross-functional, multi-disciplinary workforce that takes pride in company ownership.

Ultimate Goal = Repeat Business Based on Happy Customers

Mission/Vision Statement

McFarland Technology, Inc. has provided software engineering services to Federal Government and commercial customers since 2002.

Core Capabilities and Services

- **Scientific Software Development, including Modeling and Simulation**
 - Python, FORTRAN, MATLAB, C/C++, ANSYS CFX, HDF5 Database, MySQL Database, UNIX/Linux, High Performance Computing
- **Business Application Development, including Web, Desktop, Mobile, and Database Development**
 - Visual C#, Visual Basic, Java, ASP.NET, ASP.NET MVC, CSS, HTML, JavaScript, AJAX, jQuery, XML, Angular, Drupal, Oracle Database, SQL Server Database, Essbase Database, Oracle Application Express (APEX), Oracle BI Publisher, Oracle Hyperion Planning, Oracle Business Intelligence Enterprise Edition (OBIEE), Oracle Primavera P6 Project Portfolio Management, Microsoft SharePoint, IBM Maximo, RSA Archer

Recent Successes

- **Supplier to the US Naval Nuclear Propulsion Program since 2009.**
- **2011 Graduate of the Mentor-Protégé Program of Bechtel Marine Propulsion Corporation (BMPC) / US Department of Energy (DOE).**
- **Nominated by BMPC in FY 2012 and FY 2013 for DOE 8(a)/SDB Small Business of the Year.**
- **Supplier of modeling and simulation services to Federal Laboratories since 2011, including BMPC and Sandia National Laboratories.**
- **Currently supply software engineering services to 6 DOE Laboratories in 4 states – WA, ID, NM, and PA.**

Growth Strategy

- **Further development of our relationship with the Navy.**
- **Continuing to expand our presence in the Federal Laboratory system within and beyond the DOE.**

Key Customers

- **Bechtel Marine Propulsion Corporation / Naval Nuclear Laboratory**
- **Bechtel Corporation / Bechtel Plant Machinery, Inc.**
- **Battelle Memorial Institute / Pacific Northwest National Laboratory**
- **Battelle Energy Alliance / Idaho National Laboratory**
- **COMPA Industries, Inc. / Los Alamos National Laboratory**
- **Honeywell International, Inc. / Sandia National Laboratories**

Major Contracts/Contract Vehicles

- **US Navy Seaport-e prime contract N00178-14-D-7388**
- **GSA Schedule 70 contract number GS-35F-090DA**

Past Performance (selected)

- **Scientific Software Development – Naval Nuclear Laboratory, Sandia National Laboratories**
- **Procurement Systems – Bechtel Plant Machinery, Inc.**
- **Content Management Systems – Pacific Northwest National Laboratory**
- **Radiological Controls Applications – Idaho National Laboratory**
- **Technology Commercialization Software – Los Alamos National Laboratory**
- **Vulnerability Management Systems – Naval Nuclear Laboratory**

Why McFarland Technology, Inc.?

- **Experience in scientific software development / modeling and simulation at our nation's premier science and engineering facilities.**
- **Experience supporting the Navy since 2009.**
- **Recognized by the Naval Nuclear Propulsion Program and the DOE for technical excellence.**

McFarland Technology, Inc.

Main Office: 211 North Whitfield Street, Pittsburgh, PA 15206

Mission/Vision Statement

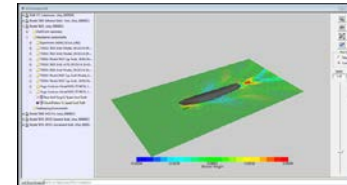

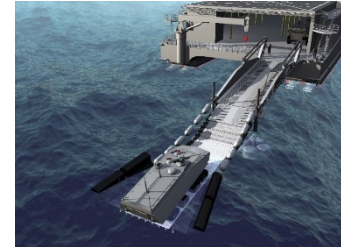

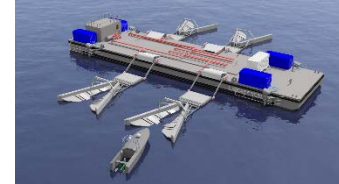

Navatek is a world leader in designing and analyzing ship hull forms, ocean structures, underwater lifting bodies, inflatable structures, and coupled hydrodynamic systems using its expertise in computational fluid dynamics (CFD) and complex engineered systems.

Core Capabilities and Services

- Computational Fluid Dynamics
- Hydromechanical System Simulation and Design
- Marine Systems Engineering
- Inflatable Structure Design and Analysis
- Demonstration and Prototype Construction and Testing
- Algorithm Development for Cyber Security

Recent Successes

- Offboard Refueling and Data Transfer System (ORADTS)
- Modular Buoyant Kit (MBK) for Amphibious Operations
- Ultra Heavy-lift Amphibious Connector (UHAC)
- Autonomous Amphibious Vehicle (AAMV)
- Engineering Analysis and Design Science for Naval Ships (ONR S&T)

Growth Strategy

- New Design Methodologies, Analysis, and Design Support for UUVs and Submarines
- Demonstrations and Prototype Systems for UUVs and Submarines
- Application of Inflatable Technology to UUVs and Submarines

Key Customers

- Office of Naval Research Code 33
- Office of Naval Research Code 30
- DARPA
- MARCORSYSCOM
- NAVSEA
- ONR STEM

Major Contracts/Contract Vehicles

- Amphibious Combat Vehicle Ramp Interface Modular Buoyant Kit (MBK) for Joint High Speed Vessel (JHSV) Stern Ramp
- Engineering Analysis and Design for Naval Ships
- Adaptive Hull Structure
- Compliant Motion-Decoupled Offboard Refueling and Data Transfer System
- High Sea State Automated Deployment & Retrieval of Towed Bodies from a Small Surface Platform
- Technology for Ship to Shore Connector Concepts with Combined High Speed and Payload Fraction
- FLEET (Future Leaders in Experienced-based Engineering & Technology)

Past Performance (major awards)

- Integration, Expansion, and Validation of Tools for the Navy Standard Design Environment, ONR, \$7,328,471
- Amphibious Combat Vehicle (ACV) Hydrodynamic Test Rig (HTR), MARCORSYSCOM, \$4,970,628

Why Navatek?

Navatek's ability to develop and apply cutting edge software and modern design practices to DoD problems and realize a demonstration or prototype system makes us a cost effective alternative for examining novel engineering concepts. Further, our experience in inflatable structures, along with our ability to manufacture U.S. made drop stitch fabric makes us an ideal partner for developing novel adaptable systems.

ORBIS

Our Vision at ORBIS is to continuously grow our business and become one of the leading companies in all of our areas of expertise. As a growing engineering, logistics, and program management company, ORBIS is your trusted partner to succeed at your mission.

Core Capabilities and Services

- Engineering**
- Logistics**
- IT Support**
- Consulting**
- RDT&E**
- Industrial Services**

Recent Successes

- **SEA04X – WFM&OE**
- **RADIAC Program recompetete**
- **Industrial Services Task Order with EBC**
- **Deployed new automated RADIAC calibration suite (RITES) to all the Navy's RADIAC Cal labs**
- **Special studies tasking - most recent reliability risk assessment for the Unmanned Influence Sweep System (UISS)**
- **BECHTEL - cost estimating, project management and training support for overhaul of Naval Nuclear Propulsion Prototype reactor**

Growth Strategy

- Remain committed to our core competencies/customer base**
- Increase name recognition/Gain new partnerships**
- Leverage the ORBIS Labs Product Development and Integration Expertise**

PATRONA CORPORATION

Key Customers, Past Performance, Contract Vehicles

■ Recent Successes

- Prime Task Order Award NUWCDIVNPT providing Base Wide Administrative Support
- Prime Task Order Award NAVSEA 07Q providing program planning, implementation, management and execution for the Submarine Safety (SUBSAFE), Deep Submergence Systems (DSS), and Fly-By-Wire Ship Control Systems (FBW SCS) Certification programs, including life cycle support, logistics, and quality assurance engineering.
- Leading Strategic Planning Summit for NAVSEA 07 Admiral.
- Leading a communication and commonality initiative for PMS 394.
- Graduated from 8(a) program outside Seaport-e. Grandfathered in Seaport-e until 2019.

■ Growth Strategy

- Expand our footprint at NUWCDIVNPT and enhance our industry and government relationships to facilitate additional growth in all geographies.

Small Business Round Table

Why Patrona Corporation?

WHAT SETS PATRONA APART FROM OTHERS?

At Patrona we **PRACTICE** Traditional Values.

Professionalism

We will treat each other with a professionalism that respects each individual.

Responsibility

We will take responsibility for our attitude, work ethic and actions at all times.

Accountability

We will hold each other accountable for being the best version of ourselves.

Communication

Open, patient, and honest communication is a cornerstone of our environment.

Trust

We develop professional relationships built on trust.

Integrity

Our business framework is built on professional and personal integrity.

Collaborative & Supportive Work Environment

We will enhance our performance through innovation, teamwork and constant collaboration with one another at work and in our communities.

Engagement

We are uniquely connected and provide a disciplined approach to all of our work.

Our Mission: To secure our customers' mission achievement through extraordinary service and innovative solutions.

Our Vision: To aid in safeguarding our nation and support its defenders - past, present, and future.

Core Capabilities and Services

- Systems Engineering: systems engineering, requirements management, hardware and software support, testing support, and risk management
- Logistics and Modernization: ILS document development, depot maintenance, fleet support, DOORS and RMIS
- Program and Acquisition Management: financial and budget support, JCIDS, CM, DM and Foreign Military Sales
- Software Solutions: business enterprise solutions, software development and SharePoint development and management
- Information Technology: Cyber security, network management and IDEs

Recent Successes

- Achieved ISO 9001:2008 Certification in 2016
- Assisted the Navy's recent delivery of Tactical Tomahawk Weapons Control System (TTWCS) upgrade to the fleet (v5.4.0.2) SW and HW (AN/SWG-5 V3)
- Precise developed Acquisition Management System (AMS) Suite of Tools officially certified as a Defense Business System
- Recognized by NAVAIR as a Top 10 Contractor for 2016

Growth Strategy

- Leverage existing NAVAIR business to NUWCNPT including Tomahawk expertise
- Enterprise Business Systems development
- Systems Engineering and Program Management core disciplines would export over nicely to NUWCNPT customer set
- Establish new business relationship into a new market

Key Customers

- NSWC Crane: maritime, airborne and ground EW programs
- Tomahawk Program (PMA-280)
- E-2 Program (PMA-231)
- Future Airborne Capability Environment (FACE)
- Navy/USMC Enterprise Knowledge Management System

Contracts/Contract Vehicles

- Seaport-e is primary contract vehicle
- Awarded in all 7 zones
- Prime on 15 U.S. Navy programs
- Three contracts valued over \$50M each

Past Performance:

- E-2 Engineering, Programmatic and FMS Support; CPFF, NAVAIR; \$56M
- Airborne Electronics Capabilities Assessment Programs; CPFF; NAVAIR; \$52M
- Tomahawk Missile Engineering Support; CPFF; NAVAIR; \$34M
- Airborne Electronic Warfare ISEA support; CPFF; NSWC Crane; \$42M

Why Precise?

- Mature, small SDVOSB that has grown 41% and 24% over the last two years by providing the right talent at the right price and staying in touch with customers changing requirements
- Senior Management ensures employees stay focused on the customer
- SB with the right infrastructure, tools and processes to support large business with no hand holding required
- Support customers requirements with efficiency and focus

Rite-Solutions, Inc.

Mission/Vision Statement

Rite-Solutions™ designs, develops, and deploys mission-critical software and systems to help you convert complex data into a competitive edge. Our award-winning innovations and Learning and Performance Solutions help you achieve an *Information Advantage*™.

Core Capabilities and Services

- Undersea Warfare Systems Engineering
- Open Systems Architectures and Enablers
- Software Development (CMMI Level 3)
- Information Technology Infrastructure and Cyber
- Learning and Performance Solutions

Rite-Solutions, Inc.

Recent Successes

- **Software Development Focus in 2016 resulted in:**
 - Substantial expansion of our OSA approach; additional development talent
 - Facility expansion including new development labs
- **CMMI Level 3 for Development – re-appraisal SEP 2016**
- **Automated Protocol Translator (APT) SBIR Phase II.5**
 - Sponsored by PMS425
 - Promises to vastly reduce the time and cost of converting interface protocols
 - Creates the protocol interface code, eliminating manual coding
 - Tested to TRL Level 4; anticipate TRL Level 6 at conclusion
 - AN/BYG-1 On Board Team Trainer CORBA-AMQP conversion is the Transition Use Case
 - We plan to expand APT capability to handle a range of protocols
 - Advertised at the SBIR Transition Forum (Sea, Air, Space) 3-5 APR 2017
 - Go to Market as Product-based service business model

Growth Strategy

- **Our primary growth strategy is in software development; providing an *Information Advantage*™**
- **Our goal today is to raise awareness of APT, a transformational capability that we wish to transition into a broad business**

Rite-Solutions, Inc.

Why THOR?

As a proven SDVOSB and SB of choice, THOR's established PMO enables us to execute mature business processes and procedures based on ISO, APQC, ASQ, and PMI best practices. THOR provides the management discipline of a large business, domain integration and information fusion of a mid-sized integrator, and agility and responsiveness of a passionate small business in which all are vested in success. THOR's culture values, empowers, and rewards agility, flexibility, innovation, and responsiveness at all levels. THOR has repeatedly won highly competitive best value procurement and successfully executed support in alignment with our bids and proposals without a cost premium. In the last three years, THOR has been awarded \$80M+ in prime contract TPV across 4 prime awards, and entered multiple new markets.
