

PETS COMING TO JAPAN CHECKLIST TO ASSIST IN THE REQUIREMENTS

Pet Information – Need to Know Pet Checklist for Import into Japan from the USA

Please visit website below for detailed official information:

<https://www.aphis.usda.gov/aphis/pet-travel/by-country/pettravel-japan>

Important to ensure all forms and dates are correct to avoid the 180 day quarantine!

Name of Pet: _____

___ Animal has been in country of export for at least 180 days.

___ **International Microchip**- must be done before BOTH rabies vaccines.

Date of Microchip: _____

Microchip #: _____ Type of Microchip: _____

___ **Previous Rabies Vaccine**- Animal must be at least 90 days old

Rabies Vaccine #1 date: _____

___ **Current Rabies Vaccine**- Must have been given at least 30 days after Rabies Vaccine #1 but no more than 1 year.

Rabies Vaccine #2 date: _____

After Rabies Vaccine #2:

___ **Rabies Titer Test (FAVN)**

Date of Rabies Titer Test: _____

Titer results: _____ (must be greater than 0.5 IU/ml)

Quarantine period of 180 days begins the date the rabies titer test was done. This test is good for two years as long as the rabies vaccines do not expire – don't let your rabies vaccines lapse AT ALL or you will need to start over!

Day 180 is on _____ (mm/dd/yyyy)

1-11 months prior to arrival:

___ DA2PP or DHLPPC (canine) vaccination date: _____

___ Bordetella (canine) vaccination date: _____
