Note:

1. When Squadron must generate a CSMP deferral for the submarine, the Squadron will use the correct ship's work center and the Job Sequence Number (JSN) that is generated by Regional Maintenance Automated Information System (RMAIS). Example: EM01-Q123, Q denotes that the JSN was created by RMAIS.
2. Dry Deck Shelter Work Center Codes DS01 through DS06 are for SSGN and 774 Class hulls when the shelters are installed to maintain 3M continuity between the afloat units and LOGSU.
3. Special Operations Forces Support Work Center Code WK02 is for all SSGN's and 774 Class hulls that are designated to host the Dry Deck Shelter.
